Horseshoes Lifebuoy

USEFUL HINTS

Like all MOB Lifebuoy products, the Horseshoe Lifebuoy should be positioned, so as to be easily accessible and be thrown quickly to a man overboard. Furthermore, horseshoe lifebuoys should be equipped with whistle, lifebuoy light with continuous or strobe light (check the batteries regularly) and a drogue to avoid the MOB casualty drifting away from the point of fall. Lastly and especially for offshore sailing, it is recommended that you use a dan buoy, which can be seen 2m above the water, which will further indicate the position of the MOB casualty.
